- **Arabic** (Native)
- **English** (Intermediate)

PERSONAL INFO

- **Nationality**:- Egypt
- **Date Of Birth**:- March 26, 1994
- **Place Of Birth**:- Kuwait

PROFILE

Problem-solving Quality Control Analyst skilled in analyzing functional, user experience, and technical requirements during the complete software life cycle. Strong attention to detail ensuring issues are logged and resolved prior to launch.

WORK EXPERIENCE

Adres - Estarta
JUNE 2024 - PRESENT

Senior software AI - QA engineer

- Designed and implemented an AI-powered test case generation solution to simplify and accelerate the creation of recurring QA tasks and sprint-level test scenarios.
- Introduced AI-assisted test data generation and data population for frequently tested application flows, reducing repetitive manual activities and improving QA productivity.
- Built and expanded Playwright-based automation coverage across application services, using GitHub Copilot to accelerate framework development, script creation, and maintenance.
- Developed and maintained test documentation, including test plans, test cases, and bug reports.
- Designed and executed test cases for AI-powered customer support systems, including chatbots and voice assistants.
- Tested the accuracy, fluency, and coherence of LLM-generated responses in various conversational scenarios using TTS & STT models.
- Manage the junior testers in the team.
- Creating the automation framework for testing the web application.
- API Automation testing.

Vodafone Egypt
FEB 23 - MAY 24
